

WEIMAR AND ITS SIGHTS

This long-distance cycle route covers 240 kilometres starting in Eisenach, then continues on to Erfurt, Weimar and Jena, before coming to an end in Altenburg.

Altitude: 150 to 360m above sea level

Level of difficulty: easy to medium

Route characteristics: asphalt 194km, gravel paths/unsurfaced: 40km, concrete/paved: 6km

Travel by train: ↗ Deutsche Bahn/Thuringia connections in all towns, bicycles can be taken on board at no extra cost.

We highly recommend taking a longer break in Weimar - not only to see the wealth of attractions in the town, but also to sample the tempting culinary delights on offer.
