

VILLA HAAR

Successful meetings

The Villa Haar captivates with its very special charm: Not one big hall, but several little rooms in a row, tastefully designed and furnished, invite you to look, stroll and linger. The elaborately restored fresco in the feudal stairway reminds the Renaissance's great masters and the view over the garden terrace with its fountains spreads the charm of the Italian zest for life. Enjoy an outstanding party together with your family, friends or colleagues. We are very pleased to develop an all-encompassing concept for you, including an indulging gastronomic program. Inside or outside, winter garden, reading room or ballroom, we furnish all rooms, balconies and the garden area totally according to your wishes and ideas - so that every guest finds his very special place.
